---Hyseal Hot Melt Tape

www.hyseal.com

Applications

With synthetic rubber base, give it high adhesion and excellent performance, it is suitable for sealing all kinds of boxes, especially for recycled boxes.

Also because of easy unwinding force, which is particularly recommended for automatic application on carton sealing machine.

Hot melt tape brand

After thorough research and development, the 1st coating line of Hot Melt Tape in Dongguan was installed and used for production at Hyseal. **MAXIT**™ was registered as our brand of Hot Melt Tape. It provides our customers more flexible choices.
